

About Lincoln College

Lincoln College provides a full measure of personal support. This is an intentionally small institution because we strive to give each student substantial individual attention. Our class sizes are small and each year we are delighted to observe students, faculty members, and support staff coming together as an academic family. There are a number of extra-curricular and co-curricular activities available to students and, because of our small size, we are able to offer many educational enrichment opportunities.

Type

Selective co-ed two-year, private, liberal arts college, accredited by the North Central Association. Designed to prepare a student for university study through a structured, supportive approach to learning.

Has Academic

Academic Support

Lincoln College provides an academic success center that is free of charge, and covers all subjects and classes taught at Lincoln. The basketball coaches also put the team thru structured study tables. They monitor the player's syllabuses to make sure the players are staying on top of their assignments and preparing for their tests/projects

Transfer Rate

75% of students accepted at Lincoln College will graduate in two years.

90% of graduates transfer immediately to a four-year institution, where they succeed as well as or better than the native students at that institution.

Student to Faculty Ratio

13:1

Average Class Size

16 students.
